

Quick Start

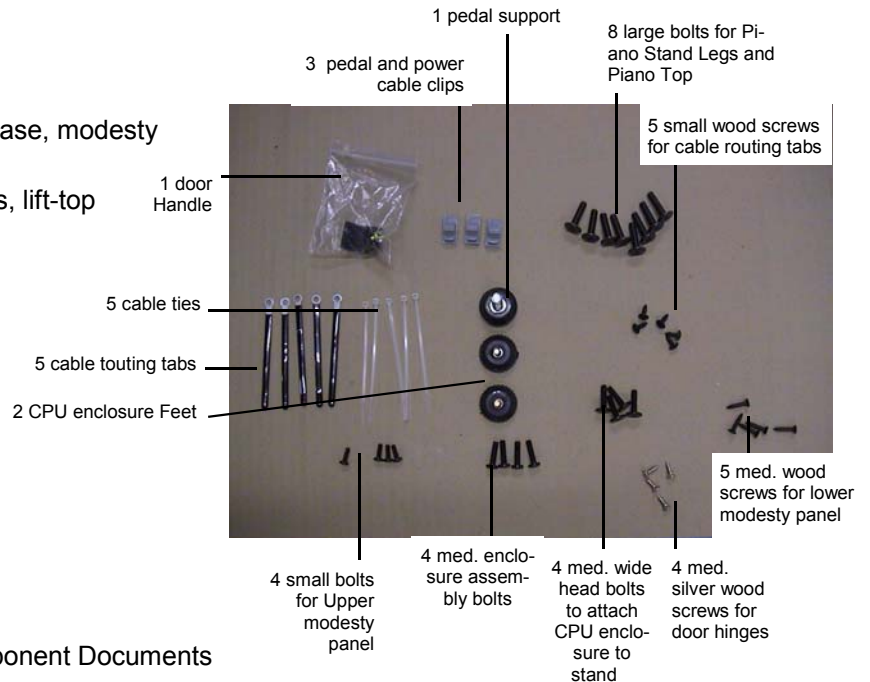

There are four (fairly) simple steps to get your ePiano assembled properly and ready for use. We recommend that you review and read a detailed explanation of these steps in the “SETUP GUIDE” very carefully BEFORE you begin the assembly process. PLEASE NOTE: There are two boxes that ship for the complete ePiano system. One of these says “ePiano” on the side, the other is the system box which contains the CPU, monitor (if included), accessories and setup guides. As you unbox each of these components, it is recommended that you use the parts checklist on the reverse side to ensure that all parts are included.

- 1** **Set up the piano cabinet, CPU Enclosure and bench**—all of these components are located in the large elongated box labeled “ePiano”.
 - refer to setup guide for proper set-up of components. *Tip: Piano top should be mounted and pedal cable plugged in before attaching CPU enclosure.*
- 2** **Set up CPU and connections**—the CPU is located in a medium sized cardboard box that is shipped along with the setup guide, monitor and accessories boxes.
 - unbox CPU and place in CPU enclosure (CPU case styles may vary)
 - refer to setup guide for proper set-up of CPU connections
 - **NOTE: Please Verify proper MIDI connections with Setup Guide**
- 3** **Set up the monitor (if included) and connection**—the monitor box is located in a medium sized cardboard box that is shipped along with the setup guide, CPU and accessories boxes.
 - unbox monitor and place on top of piano (either left or right side, as preferred)
 - refer to setup guide for proper set-up of monitor connections
- 4** **Power Up**
 - attach all power cables to plug strip (included)
 - turn on power to piano, CPU, and monitor
 - see the “Tab Guides” and the ePiano Help System for first time user tips

Contents Checklist

1. Contents of ePiano box

- Piano
- Stand—right leg, left leg, pedal base, modesty panel
- Bench Box —4 legs with leg bolts, lift-top seat top
- CPU Enclosure Box—two sides, hinged door, bottom, top
- Hardware to set up cabinet/stand/piano
SEE PICTURE>>

2. Contents of CPU Box

- CPU (ePiano's CPU)
- CPU Power Cord
- Original System Disks and Component Documents including Microsoft XP Home license

3. Contents of Monitor Box (if included)

- Black LCD Flat Panel Monitor
- Power cable
- VGA Monitor Cable
- Monitor documentation and instructions

4. Contents of Instruction & Accessories Box:

- ePiano License Agreement (on box)
- Set up Guide
- Typing Keyboard
- Optical Mouse
- Micro-audio cable
- MIDI Connection Cable
- Power Strip
- Music Ace Stickers
