My Technology Situation:

I have PNOscan &	PC Laptop	MAC
Recommend:	PNOscan PC laptop Bundle	Mac Starter
Why:	<i>PC laptops can't do "realtime" sound playback except through programs featuring soft-synthesis—like Mixcraft.</i>	<i>Great learning tool—and interactive demo—along with Garage band—represents great value combination.</i>

Features	Description	PNOscan PC Laptop Bundle	Mac Starter
Software Titles			
	The Musical Toolbox and control center. New online training and demo features.	<input checked="" type="checkbox"/>	
	Interactive learning and performance using Standard MIDI Files		<input checked="" type="checkbox"/>
	Select, layer and play sounds from the system or other General MIDI source		<input checked="" type="checkbox"/>
	New Ver 5! Now includes notation. Simple composition with live recording MP3 creation and more.	<input checked="" type="checkbox"/>	
What you'll need:		Recommend Vista/ Windows 7 and Core 2 with 1+gb RAM.	OSX 10.4+ Intel based Mac system—

Let us help you realize the amazing potential of music software!
